

LABORATORY REPORT

NAME : MR.BC0623	REFERRED BY : SELF	VISIT NO : VAMP26148071
AGE : 40Y 0M 0D	ZERO TARIFF CLIENT CODE	COLLECTED ON : 21-04-2026 10:00
GENDER : Male	LAB MR# : AAMP01479350	RECEIVED ON : 21-04-2026 19:51
OP / IP / DG # :		APPROVED ON : 22-04-2026 17:58
		REPORT STATUS : Final Report

Test Name	Result	Biological Ref. Interval	Unit
BIOCHEMISTRY			
GFR-e (Glomerular Filtration Rate - estimated) with Cystatin C (Serum)			
Cystatin C <i>immunoturbidimetric</i>	0.74	0.61 - 0.95	mg/L
Creatinine <i>Modified Jaffe Kinetic</i>	0.9	0.70 - 1.20	mg/dL
eGFR by Cystatin C (Calculated)	99.00	Normal or high: ≥ 90 Mild decrease: 60-89 Moderate decrease: 45-59 Moderate to severe decrease: 30-44 Severe decrease: 15-29 Kidney Failure: < 15	ml/min/1.73 sqm

Interpretation:

Cystatin C inversely correlates with the glomerular filtration rate (GFR), that is, elevated levels of cystatin C indicate decreased GFR. Cystatin C may provide more accurate assessment of GFR for very obese, older adults, or malnourished patients than creatinine. Cystatin C equation does not require patient ethnic data and can be used for those patients with this information unavailable. Due to immaturity of kidney function, cystatin C levels are higher in neonates less than 3 months of age.

Dr. Sanjeeta
MBBS,MD (Biochemistry)
Consultant Biochemist

Disclaimer:

1. All results released pertain to the specimen as received by the lab for testing and under the assumption that the patient indicated or identified on the bill/test requisition form is the owner of the specimen.
2. Clinical details and consent forms, especially in Genetic testing, histopathology, as well as wherever applicable, are mandatory to be accompanied with the test requisition form. The non-availability of such information may lead to delay in reporting as well as misinterpretation of test results. The lab will not be responsible for any such delays or misinterpretations thereof.
3. Test results are dependent on the quality of the sample received by the lab. In case the samples are preprocessed elsewhere (e.g., paraffin blocks), results may be compromised.
4. Tests are performed as per the schedule given in the test listing and in any unforeseen circumstances, report delivery may be affected.
5. Test results may show inter-laboratory as well as intra-laboratory variations as per the acceptable norms.
6. Genetic reports as well as reports of other tests should be correlated with clinical details and other available test reports by
