**SEROLOGY AND IMMUNOLOGY**

**Anti - Endomysial Antibody IgA - IFA (Serum)**

Anti - Endomysial Antibody IgA - IFA <i>Immuno fluorescence Microscopy</i>	Negative	NEGATIVE, Sample screening dilution is 1:10
---	----------	---

**Interpretation:**

Note: Sample screening dilution 1:10

Note:

1. Autoimmune reactivities are not by themselves diagnostic, but must be correlated with other laboratory & clinical findings.
2. A useful test for exclusion is HLA - DNA testing for the presence DQ 2 (DQB1\*02, DQA1\*05) and DQ8 (DQB1\*03, DQA1\*03). Celiac disease can be excluded in 90% cases if all these alleles are negative.
3. Test conducted on Serum

**Comments:**

IgA class of Endomysia antibodies are present in nearly 100% patients of celiac disease. Thus their identification is considered diagnostically sensitive and specific for Gluten sensitive enteropathies. Postivity is also seen in some cases of dermatitis herpetiformis.

DISEASE	PERCENT POSITIVITY
Confirmed Celiac disease	
On Gluten	100
On Gluten free diet	46
Suspected Celiac disease	
On Gluten	90
On Gluten free diet	17
Dermatitis herpetiformis	80

**Dr. G. Amitha**  
**MBBS, MD (MICROBIOLOGY)**  
**Consultant Microbiologist**

**Disclaimer:**

1. All results released pertain to the specimen as received by the lab for testing and under the assumption that the patient

<p>indicated or identified on the bill/test requisition form is the owner of the specimen.</p> <p>2. Clinical details and consent forms, especially in Genetic testing, histopathology, as well as wherever applicable, are mandatory to be accompanied with the test requisition form. The non-availability of such information may lead to delay in reporting as well as misinterpretation of test results. The lab will not be responsible for any such delays or misinterpretations thereof.</p> <p>3. Test results are dependent on the quality of the sample received by the lab. In case the samples are preprocessed elsewhere (e.g., paraffin blocks), results may be compromised.</p> <p>4. Tests are performed as per the schedule given in the test listing and in any unforeseen circumstances, report delivery may be affected.</p> <p>5. Test results may show inter-laboratory as well as intra-laboratory variations as per the acceptable norms.</p> <p>6. Genetic reports as well as reports of other tests should be correlated with clinical details and other available test reports by a qualified medical practitioner. Genetic counselling is advised in genetic test reports by a qualified genetic counsellor, medical practitioner or both.</p> <p>7. Samples will be discarded post processing after a specified period as per the laboratory's retention policy. Kindly get in touch with the lab for more information.</p> <p>8. If accidental damage, loss, or destruction of the specimen is not attributable to any direct or negligent act or omission on the part of Ampath Labs or its employees, Ampath shall in no event be liable. Ampath lab's liability for a lack of services, or other mistakes and omissions, shall be restricted to the amount of the patient's payment for the pertinent laboratory services.</p>
