GENDER	: Male	LAB MR#	: AAMP01479383	RECEIVED ON	: 21-04-2026 18:11
OP / IP / DG #	:			APPROVED ON	: 22-04-2026 16:38
				REPORT STATUS	: Final Report

Test Name	Result	Biological Ref. Interval	Unit
-----------	--------	--------------------------	------

SEROLOGY AND IMMUNOLOGY

Hepatitis B surface Antibody Total (Anti HBs) (Serum)

Anti HBs ELISA	3.50	Non Reactive : <10.00 Reactive : >=10.00	mIU/mL
-------------------	------	---	--------

Interpretation:

Presence of Anti HBs has been shown to be important in protection against HBV infection. Passively acquired antibody to HBV as in the case of blood transfusion and recent immunoglobulin therapy does not signify immunity. For diagnostic purposes, results should be used in conjunction with clinical history and other hepatitis markers. A reactive anti-HBsAg result does not exclude a reactive HBsAg result. Individuals that have received blood component therapy during the previous 3 to 6 years may have a false reactive anti-HBs result due to passive transfer of anti-HBs. Anti-HBs indicates previous exposure to HBV in an asymptomatic individual. Anti-HBs monitor the success of Hepatitis B vaccination, convalescence and recovery of Hepatitis B infected individuals.

Dr. G. Amitha
MBBS, MD (MICROBIOLOGY)
Consultant Microbiologist

Disclaimer:

- All results released pertain to the specimen as received by the lab for testing and under the assumption that the patient indicated or identified on the bill/test requisition form is the owner of the specimen.
- Clinical details and consent forms, especially in Genetic testing, histopathology, as well as wherever applicable, are mandatory to be accompanied with the test requisition form. The non-availability of such information may lead to delay in reporting as well as misinterpretation of test results. The lab will not be responsible for any such delays or misinterpretations thereof.
- Test results are dependent on the quality of the sample received by the lab. In case the samples are preprocessed elsewhere (e.g., paraffin blocks), results may be compromised.
- Tests are performed as per the schedule given in the test listing and in any unforeseen circumstances, report delivery may be affected.
- Test results may show inter-laboratory as well as intra-laboratory variations as per the acceptable norms.
- Genetic reports as well as reports of other tests should be correlated with clinical details and other available test reports by a qualified medical practitioner. Genetic counselling is advised in genetic test reports by a qualified genetic counsellor, medical practitioner or both.
- Samples will be discarded post processing after a specified period as per the laboratory's retention policy. Kindly get in touch with the lab for more information.
- If accidental damage, loss, or destruction of the specimen is not attributable to any direct or negligent act or omission on the part of Ampath Labs or its employees, Ampath shall in no event be liable. Ampath lab's liability for a lack of services, or
